THE MATERIALS

The process of transforming stone from quarries into cut-to-size slabs involves several steps that require precision and expertise. Quarrying is the first step, where the stone is extracted from the earth using specialized equipment. The blocks of stone are then cut into large, uniform slabs using large saws. Depending on the type of stone, treatment may be applied to improve its strength and durability. Next, the slabs undergo surface finishing through a series of machines to achieve the desired finish. Quality control is conducted to ensure that the slabs meet the required standards for size, thickness, and appearance. Once the slabs are finished, they are cut into the desired sizes and shapes using specialized machinery. Finally, the cut-to-size pieces are finished with a final surface treatment before being packaged and shipped to their final destination. Each step of the process requires specialized knowledge and equipment, resulting in a high-

THE QUARRIES

UNEARTHING TIMELESS BEAUTY WITH EVERY CUT

Egyptian marble quarries are among the most highly regarded in the world, known for producing some of the finest quality marble available. From the prized Galala and Sinai pearl to the striking Rosso Lepanto and Sunny Gold, Egyptian marble comes in a range of colors and patterns that make it highly sought after for a variety of applications. The country's quarries are equipped with advanced technology and machinery to ensure that only the highest quality materials are extracted and processed. Egyptian marble is prized for its durability, resistance to weathering, and unique character, with each piece displaying its distinct patterns and color variations. The marble quarries of Egypt have been a source of pride for the country for thousands of years, and continue to be a major contributor to the global stone industry today.

MARBLE

Product Name: Galala

Category: Egyptian Marble

Exterior / Interior

Galala Marble is a luxurious and timeless Egyptian marble known for its unique blend of creamy beige and light grey tones. Quarried in the Sinai Peninsula, Galala Marble is a high-quality and durable natural stone that has been used for centuries in prestigious architectural projects around the world.

Recommended Usage

Walls and floors applications, Marble Counter tops, mosaics of Marble, Marble fountains, pool and wall capping, Marble stairs, windows, Marble Fireplaces, Marble Floors, Marble Flooring, Interiors and Exteriors

Available Sizes

Our factory can produce different sizes tiles and different thicknesses as 1cm, 1.2cm, 1.5cm, 2cm, 3cm regarding to your projects requirements. Common slabs thicknesses are 2cm and 3cm.

Common imperial sizes are: (Inch)

12×12, 12×18, 12×24, 16×16, 16×24, 18×18, 24×24, 24×36, 32×32, 36×36, 40×40

Common metric sizes are: (cm)

30×60, 40×40, 40×60, 40×80, 60×60, 60×90, 80×80, 90×90, 100×100
